- Urbanise's FY2020 result will be released in late August

**Urbanise.com Limited** (ASX:UBN) ("Urbanise" or "the Company") today provides a business update and Quarterly Cash Flow Report for the period ended 30 June 2020 (Appendix 4C). Urbanise is a leading provider of multi-tenant cloud-based Software-as-a-Service (SaaS) platforms to strata and facilities managers in Australasia, the Middle East, Europe and South Africa.

Urbanise's CEO Saurabh Jain said: "We are very pleased with our performance during the June quarter which reflected our continued focus on licence revenue growth, cost discipline and driving working capital efficiencies. Underlying average monthly cash used of \$75k was at its lowest level since the 2014 IPO. Our financial position remains strong with no material debt at 30 June 2020 and a closing cash balance of \$4.55m.

"This quarter has also highlighted the mission-critical nature of our software and the resilience of our SaaS subscription model with its highly recurring revenue base and customer retention of close to 100%. In addition, most of our clients pay in advance on either a quarterly or annual basis, and we have continued to manage our debtors very effectively throughout this period. As a result, we have not seen any material impact on the business from the COVID-19 pandemic, which also reflects the essential nature of the industries we serve.

<sup>2</sup> Excluding COVID-19 tax relief and cost deferrals

<sup>3</sup> No debt other than annual insurance premium funding

“During the quarter, the PICA rollout remained an absolute priority for the Strata team. The project is progressing to plan with the required development for the next phase largely complete. Urbanise and PICA have successfully commenced activations across the contracted portfolio with the rollout expected to finish in FY2021. We have also continued to pursue our pipeline of activities across our global footprint, and there has been increased demand for Urbanise’s integrated strata and facilities solution.

“At the same time, we have continued to invest in customer support and product development to enhance the user experience and drive cost efficiencies for our clients. Some of these features such as web chat and interactive training, will also allow us to further scale our platform across geographies and benefit from industry tailwinds as our customers are required to meet ever increasing reporting and compliance obligations.”

### June Quarter Financial Summary

During the quarter ended 30 June 2020, Urbanise continued to pursue its pipeline of activities across Australasia, the Middle East, Europe and South Africa and recorded a number of customer wins across its global footprint.

Total revenue of \$2.61m<sup>4</sup>, increased by 27.6% on pcp reflecting strong licence fee growth across strata and facilities management and an increase in professional fees mainly related to the onboarding of a large strata customer. Recurring licence fee revenue of \$2.06m<sup>4</sup> grew by 22.5% on pcp driven by a 32.4% increase in Facilities Management licence fees and a 17.2% increase in Strata licence fees

Net cash in-flow of \$268k benefited from \$367k in deferred costs and \$125k in tax relief arising from government COVID-19 initiatives. Underlying average monthly cash used of \$75k was 63.2% lower than Q4 FY2019 due to strong revenue growth, further improvements in advance billings and cash collections as well as disciplined cost management.

At 30 June 2020, Urbanise had a cash balance of \$4.55m<sup>4</sup> and no material debt.

## Facilities

During the June quarter, Urbanise continued to focus on the delivery of its multi-tenant software to facilities management outsourcing companies. Facilities Management licence revenue increased by 32.4% to \$834k<sup>5</sup> due to the onboarding of new customers and network effects as more users were added to the platform. Professional fees for Q4 FY2020 were in line with Q4 FY2019.

## Strata

The PICA project remained a priority with the pre-requisite development for the roll-out largely completed by June 2020. Urbanise and PICA commenced activations across the contracted portfolio during June and the roll-out is on track for completion in FY2021.

Strata licence revenue increased by 17.2% to \$1.21m<sup>5</sup> driven by onboarding of new customers and client base expansion among existing customers. Professional fees increased by 117.1% largely due to development fees associated with a major client.

### Q4 FY2020 Cashflow Summary – Strong financial position

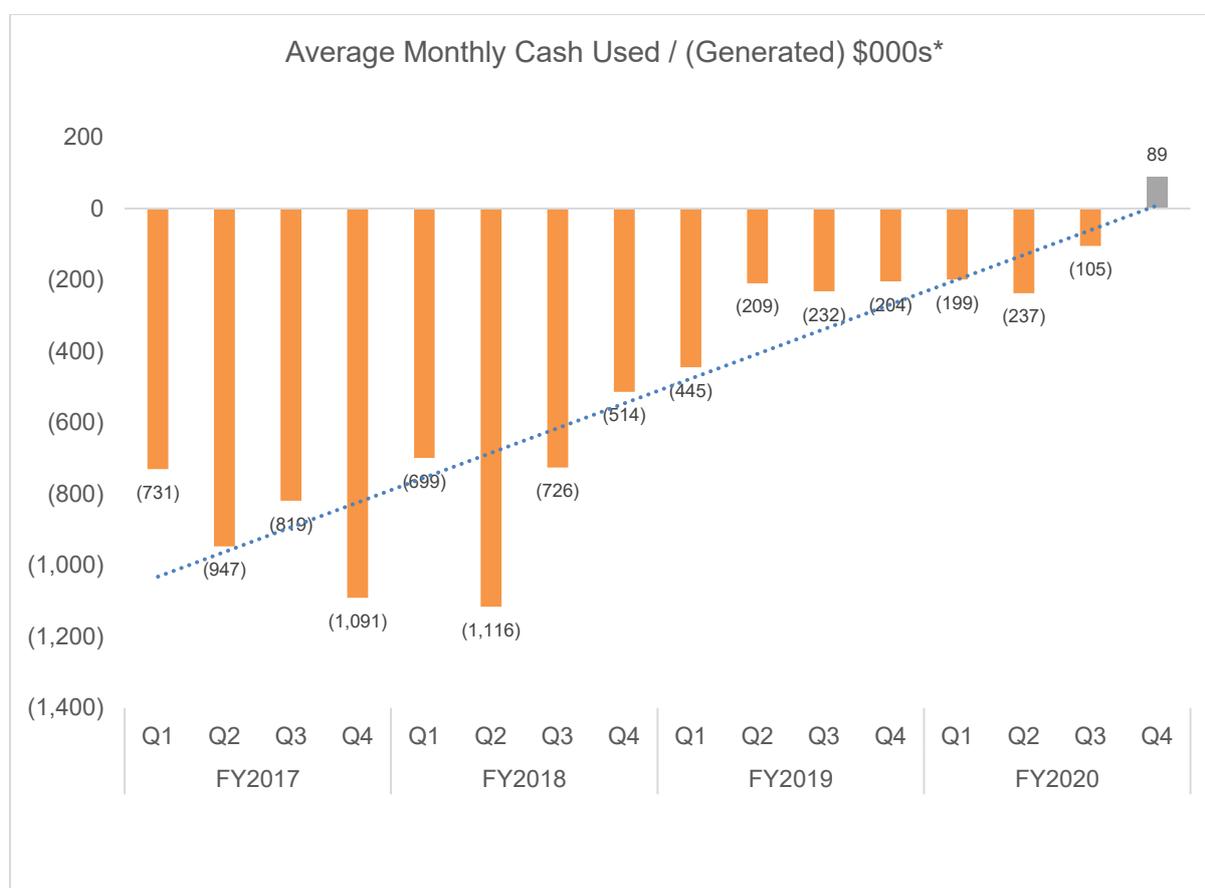

Net cash in-flow of \$268k was assisted by the deferral of \$367k in costs and \$125k in tax relief arising from government initiatives associated with the COVID-19 pandemic.

The underlying average monthly cash used was \$75k for the June quarter, a 63.2% decline on Q4 FY2019 (\$204k) and 28.6% lower than Q3 FY2020 (\$105k). This reflected the timing of cash receipts from customers, increased advanced billings and further improvement in collections. Payments were impacted by the timing of employee superannuation payments.

Chart 1 shows the dramatic decline in average monthly cash used as Urbanise shifted its business model to focus on the delivery of industry specific cloud-based SaaS platforms.

Urbanise is in a strong financial position with no material debt and a closing cash balance of \$4.55m at 30 June 2020.

**Chart 1: Significant reduction in average monthly cash used** (Unaudited financial information)

\* Excludes proceeds from capital raises / placements and sale of business assets

Payments for intangibles reflected capitalised development costs of \$277k<sup>5</sup> during the quarter related to the strata platform. Facilities Management development costs are fully expensed as are the majority of strata development costs. Urbanise continues to invest in its platform and systems to expand the features and applications available and improve the delivery of its products and solutions.

Payments to related parties in Item 6.1 of Appendix 4C consisted of fees paid to the Board of Directors.
